Welcome to Ashbury Heights! Ashbury Heights is celebrating 10 years this month being born in Lake of the Ozarks, MO. We are a residential care facility for individuals who require assistance with their activities of daily living. We would like to take a moment to explain the types of things that we have to offer our residents. First let us ask you this, “Do you or someone you know have an elderly friend or family member that has problems getting along with normal activities? They are basically able to take care of most things on their own, but need help taking their medications correctly or help dressing, bathing, or cooking? Or are they not to take their own meals alone, need help with eating, and need the care of a nursing home”? Ashbury Heights offers the care and assistance they need.

Here is the short introduction to what we have to offer:

We have a lounge room with a couch and loveseat, chairs, table and television for entertainment. We have a large bedroom with a couch and loveseat, chairs, table and television for entertainment and relaxation just like you would have at home.

Our 2017 Lighted Christmas Parade was a huge success. Biggest crowd ever and great floats. Thank you to all who were participants and to the spectators.

Looking forward to next year already.
